

Dr. Zulekha Daud

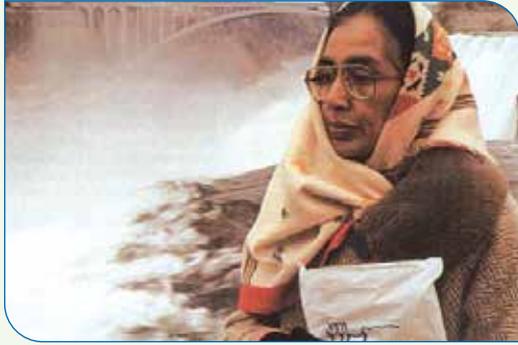

Dr. Zulekha Daud

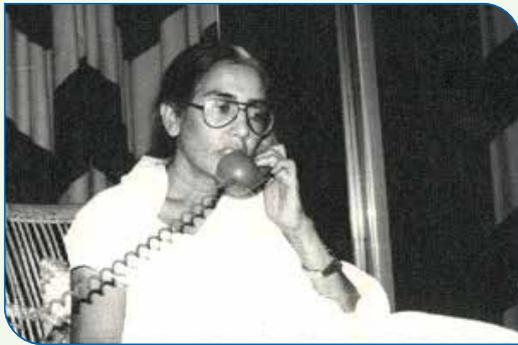

Founder and Chairperson of Zulekha Healthcare Group, UAE
Alexis Hospital, India and Zulekha Colleges, India

Dr. Zulekha Daud is the first recognised Indian woman medical professional and senior-most lady entrepreneur in UAE who has worked tirelessly towards the welfare of Emiratis and expats when healthcare access was very limited in the 1960's. In the past 5 decades, she has revolutionised the healthcare landscape and inspired others to follow suit. Today, Zulekha Healthcare Group boasts of super-speciality hospitals, medical centres, educational institutes and pharmacies in UAE & India.

1964 - The Magic of the Caring Touch Began...

Dr. Zulekha Daud received her medical degree from the Government Medical College in Nagpur. Her parents were her role models; constantly encouraging her to take up challenges. She reached UAE in 1964; when there was a dearth of female doctors in the region, to work in the Kuwaiti Mission Hospital located in Sharjah.

1965 - Dr. Zulekha's Clinic in Sharjah

From a young medical graduate to a practicing physician serving patients from all walks of life, Dr. Zulekha soon became a household name. She continued her compassionate service from a small clinic in Sharjah with limited amenities. However, she was able to capture the hearts of the UAE nationals and expatriates with her dedicated service and became known as Mama Zulekha.

1992 - Zulekha Hospital in Sharjah

After years of dedicated service, Zulekha Hospital was established in Sharjah in 1992. It started off as a 30-bed hospital with basic facilities for Gynaecology, Obstetrics, Surgery, Family Medicine and Paediatrics.

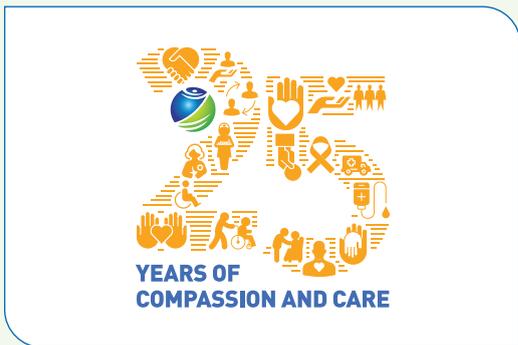

2004 - Zulekha Hospital in Dubai

This year saw the establishment of Zulekha Healthcare Group (ZHCG) through a second hospital in Dubai and three medical centers in addition to pharmacies. The hospital in Dubai had 79 beds which offer both inpatient and outpatient care covering a wide range of medical and surgical specialties.

2012 - Zulekha Hospital in Sharjah: New Award Winning Building

Zulekha Hospital, Sharjah expanded with a new building offering multi-disciplinary medical care and diagnostic center with outpatient and inpatient facilities. The 12 floor facility boasts of 185 inpatient beds, sprawled over an area of 290,000 sq ft and was Awarded Most Sustainable Hospital in ME. The Group became the first in UAE to have both hospitals accredited twice by Joint Commission International for high-quality care.

2017 - Zulekha Hospital's Silver Jubilee Celebration

Success belongs to those who dedicate everything to their passion. The story of Zulekha Hospital is also the story of a team of passionate individuals led by Dr. Zulekha Daud and their relentless commitment to provide care to thousands of patients. Zulekha Hospital celebrated its 25 years of compassionate care in 2017.

2017 - Expansion of Zulekha Hospital, Dubai

Following the completion of the Zulekha Hospital Dubai expansion, the hospital will have an additional 60 inpatient beds, operation theatre arrangements, emergency services and labour rooms, taking its total capacity to 179 beds in 2018.

Apart from a comprehensive Oncology Care unit with radiation therapy bunkers to surgical theatres, the building will provide for additional Cath labs as well. Sub-specialties providing services with respect to Pediatric Nephrology and Pediatric Cardiology will be available alongside Histopathology, Fetal Medicine and Neurosurgery that will be established in the extended facility. A Trauma Care Unit, IVF Clinic and Diabetic Clinic are also being included in the facility.

CHAPTER: INDIA

Educational and Vocational Training for Women

Dr. Zulekha Daud always believed in empowerment of women and under-privileged students through education. With this belief, she started in 2008 ZED Vocational Training & General Shikshan Sanstha (ZEDVTGSS), in Nagpur, India - a locality considered as backward with poor quality educational institutions. ZED is a Minority Commission recognized institution imparting courses in Education, Science, Commerce and Technology streams.

The single minded mission of ZED is to provide quality education with focus on all-round development supported by state-of-the-art infrastructure at nominal costs. Management Scholarships are provided to the needy and deserving students to ensure they are not deprived of high quality education. The college strives to not just provide main stream education but also train women on vocational skills like computer application, teaching courses, home science skills, etc.

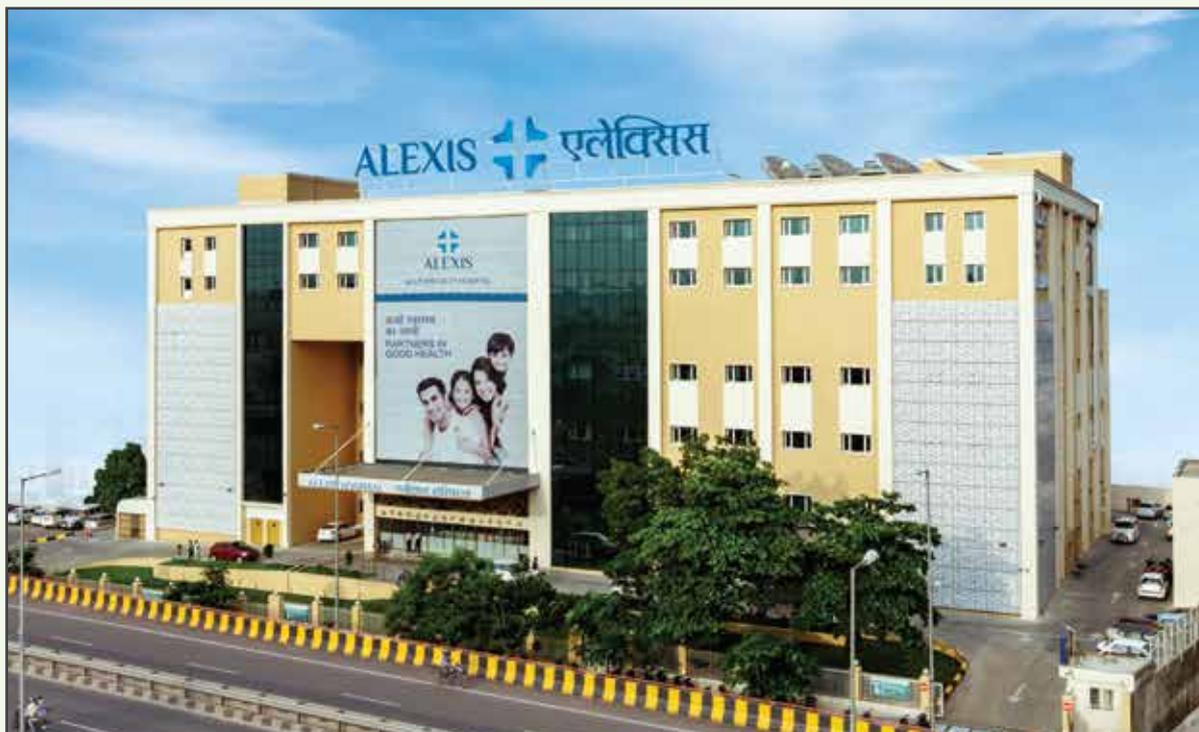

2010 - Zulekha College in Nagpur

Dr. Zulekha Daud engineered the cause of bringing affordable education and professional courses for the downtrodden and deserving students in and around Nagpur by setting up the following colleges - Zulekha College of Commerce, Science & Technology, Zulekha College of Education and Zulekha Post Graduate College of Education. These colleges have over 5000 students for variety of professional curriculum such as Polytechnic, BBA, BCCA, B.Com, B.Ed and M.Ed.

2013 - 'Clean Drinking Water' Project in Nagpur

Zulekha College adopted non-functional schools in the neighbourhood in a bid to revive them as knowledge centers and also initiated the 'Clean Drinking Water' project with Metito. The adopted schools are Millat Urdu Upper Primary & High School (student strength - 750), Public Urdu Upper Primary School (student strength - 375), Shums Girls High School and Mehmooda Junior College (student strength - 385) and Ravindranath Tagore Education Societies Convent (student strength - 47).

2016 - Inauguration of Alexis Multispeciality Hospital in Nagpur

Still young at heart, Dr. Zulekha Daud realised her parents' dream by setting up an ultra-modern hospital in her hometown Nagpur under the name of Alexis Multispeciality Hospital. Prestigiously funded by IFC, Alexis Hospital is the first multispeciality facility to offer the most advanced cancer care treatment to the entire central India. This hospital will be only the third healthcare brand in the country to feature Varian True Beam Linear Accelerator for advanced cancer treatment.

The hospital features well-equipped Physiotherapy, spacious Rehabilitation Facilities, Endoscopy suite, 60-bed Critical Care services, 17-bed MICU, 11-bed NICU, 32-bed SICU, 5 major Operation Theaters with 1 minor Operation Theater, 7 Dialysis units and 2 Birthing boutiques.

Alexis Multispeciality Hospital is proud to have received NABH Accreditation this year (2018), the highest national recognition and a mark of quality patient care and safety from the National Accreditation Board for Hospitals & Healthcare Providers (NABH).

For her notable work, Dr. Zulekha Daud has been felicitated with several prestigious laurels in the region. It means supporting the immediate community on a local scale.” She has been actively associated with many NGOs like Dar Al Ber Society, Biet Al Khair Society, Sharjah Charity International and Patients Friends Committee. Under her patronage, the group have conducted several CSR drives notably Breast Cancer, Cervical Cancer, Kidney and Arthritis awareness in the region.

SCREEN & SURVIVE
CRC SCREENING WORKS!

Colorectal Cancer Awareness Campaign

Colorectal Cancer is the second most common cancer diagnosed in the UAE. The ‘Screen & Survive’ campaign is intended to spread awareness of the importance of early screening in detection and effective treatment of Colorectal Cancer. As part of the campaign, patients availed FREE consultation with General Surgeon & Gastroenterologist, complimentary FOBT and special discounts on CT Virtual Colonoscopy and other Lab & Radiology services.

Cervical Cancer Awareness Campaign

Cervical Cancer is one of the leading causes of death among women in the UAE. The 'Chance to Change' campaign is intended to spread awareness on the importance of early screening and HPV vaccination against Cervical Cancer. As part of the campaign, patients availed FREE consultation with Gynaecologist and complimentary LBC (PAP) Test.

Breast Cancer Awareness Campaign

Breast Cancer is the most common cancer diagnosed in women worldwide. The 'Pink It Now' campaign is intended to spread awareness on the importance of breast self-examination and regular mammograms to detect cancer at an early stage. As part of the campaign, patients availed FREE consultation with specialist along with complimentary X-Ray Mammogram and U/S Mammogram at a discounted price.

Founder's Message

I take this opportunity to thank you for spending some of your precious moments to read about me, my life and my humble contributions to society and mankind in general. I consider myself fortunate to get this chance to be of service to humanity because I know that in our hearts we all would love to leave this planet a better place than how it was before us.
